Subject: Re: Missing 75 year old snow mobilers
Date: Monday, February 4, 2019 7:22:22 AM

How quick things can change....

PAL are approved to go by the RCMP command.

The request for me to call Air Services just received. I called Bill at Air Services and the pilot will call Officer Lodge and get coordinates for search grid. The weather looks ok for the area but Universal will determine and let Air Services know if still on weather hold.

Will keep you posted.

Blair
