Continuation Report

[2020-11-06 1800 Revived the file from day shift. [REDACTED] [REDACTED] has gone missing from [REDACTED] at [REDACTED] [REDACTED] [REDACTED]. All CBS unit along with K9 searched the area around the house and were unable to locate [REDACTED] [REDACTED].

Spoke with Duty Officer and decided that we would have GSR attended first thing in the morning to begin a search for [REDACTED] [REDACTED]. Tonight the search would be looked after by the car in the area and the miss person report which has been read out to all units. This decision was made based on the fact that the weather is not the best for searching as it is dark and wet out. [REDACTED] [REDACTED] actively avoids the Police as searchers when they are looking for him. With the darkness of the night and area to be searched and [REDACTED] [REDACTED] avoiding us. We would not be able to conduct a effective search vs in the morning we would have more personally and the day light on our side to help with the search. Also from previous experience we know that [REDACTED] [REDACTED] moves around during the day and should be easier for us to locate him.

Spoke with Mr. French of Rovers and the call out for the search will be for 900 tomorrow morning. We will meet at the Church just up the road from [REDACTED] [REDACTED].

20:30 Spoke with [REDACTED] [REDACTED] at the [REDACTED] [REDACTED]. [REDACTED] [REDACTED] has not returned yet. They have spoken with his family in central NL and they are aware that he is missing. They will call us if [REDACTED] [REDACTED] returns at any point tonight.

Cst. D. Andrews will be attending the search in the morning as the RNC GSR coordinator.

22:30 Searched the area around the [REDACTED] and the side streets on both side up the Foxtrap access rd all with negative results.

2020-11-07 0156 Searched the area of the Foxtrap Marina and was not able to locate [REDACTED] [REDACTED]. There was three boats I could check and [REDACTED] [REDACTED] was not in any of them.

Search the trail leading from the Marina and bottom of Greenly Town Rd. No sign of [REDACTED] [REDACTED] on the trail or side spots.

0300 Checked the area of Long Shore rd and around the St. Edwards school and the woods and play ground. There was no sign of [REDACTED] [REDACTED].

1830 Received file back from day shift and [REDACTED] [REDACTED] has not returned or been located during the search today. I spoke with staff from the [REDACTED] and [REDACTED] [REDACTED] has not returned there either. They have no new information or areas for us to check at his point. Informed all night shift units that [REDACTED] [REDACTED] was still missing and for them to be on the look out for him. Also assigned the K4 car the shift to shift file for the evening.

2200 Searched the area of the Peachtown Rd looking for [REDACTED] [REDACTED] with no success.

20-11-11 Conducted a search of three wooded area with the rovers Drone for [REDACTED] [REDACTED]. The three areas were the woods river area right behind the [REDACTED] on Foxtrap access rd, the wood area off Bulter road North and the wooded area behind Tinties in Kelligrews. earlier in the am. This information was passed over to me by a searcher who learned while talking to a citizen when they were on the search.

I called Time Rideout the owner of the daycare who confirmed that her alarm had gone off and they did not think much of it and assumed it had been the wind. I asked if it would be ok to send an officer to check it out as we were looking for a missing person. She said this was no problem at all. I requested Cst Sutherland attend and check the daycare.

1216- I spoke to the Coast Guard who provided an update. They stated the winds were coming up and the small boat had travelled from the long pond marina to Lance Cove head in Seal Cove. The small boat is going to return to the Long Pond Marins and the larger Anna Harvey was still on route.

after the activity in the day he may present himself back at the home in the night time.

Last night, 2020-11-07 around 11:00pm we were sitting in the garage. The dog jumped up on the couch, looking out the window and started barking. I got up and watched out the window and I could see someone walk to the dollar store, which was closed. Today I noticed Search and rescue out doing searches and decided to check my video footage. I took a video of the video footage and brought it to the home on Foxtrap access. I showed it to [Redacted], a worker at the home, to see if she could recognize if it was him, and she said it could be him, as it looked like his walk. It was 11:04 on the clock, that he passed in front of our home, headed towards Doughby's.
